

August 23, 2017

To: Technicians with Certifications Expiring

From: Technical Training and Certification Program (TTCP)

According to our records, you have at least one TTCP certification expiring this year. Registration information for the 2017/2018 training season will be available on the TTCP website at: <https://iowadot.gov/training/technical-training-and-certification-program> on or about October 2, 2017. Registrations must be completed online. Detailed instructions on how to register will be available on the website by October 2, 2017.

Your current certification information is available at <https://iowadot.gov/training/certified-technicians>.

Web-based reviews are available at <https://iowadot.gov/training/web-based-training>. It is advisable to review these prior to recertification.

Test-only days will be available for individuals who want to take the recertification exam for any of the certifications at a reduced price, instead of attending the entire recertification class. Information on the test-only days will be available on the TTCP website on October 2, 2017.

HMA I, PCC II, and Erosion and Sediment Control Updates are offered through web-based training. HMA I and PCC II update classes will continue to be offered in the Districts. If an individual plans to take an update via the web, they will need to go to <https://iowadot.gov/training/web-based-training>. The updates are only available from January 1st to May 31st.

If you have any questions regarding the TTCP, please contact one of the following:
